Subject: [Mafprogramcontacts] Legislative Task Force on the Consolidation of Early Childhood Education and Care

I would like to share a statement that Stephanie Fanjul, President of the North Carolina Partnership for Children, and I have written to express our hopes for the legislative task force that is looking at efficiencies in the early childhood system in NC.

To All Advocates for Young Children:

We are both honored to have been appointed by Governor Bev Perdue to serve as members of the Legislative Task Force on the Consolidation of Early Childhood Education and Care. It is our shared intention to work together diligently on behalf of all young children of North Carolina to continue to build our state's early education and care system.

We see this study as an opportunity to do what is best for North Carolina's children. As this task force moves forward, we are committed to working together toward a stronger, more coordinated early childhood system that meets the needs of all young children in NC. To that end, we will work to describe our work, how it is different, how it connects and how it might be made more efficient. Please help us move forward as we seek to ensure that North Carolina's young children have all that they need to succeed.

Stephanie Fanjul and John Pruette
